VRIDA®

VRIDA is a brand that is synonymous with premium handcrafted ceramic decors. Each product is the result of the vast wealth of knowledge and manufacturing expertise of our company and the people we work with.

The most suitable procedure is chosen to create these collections on a case-by-case basis. Most work is done by hand, using various techniques like screen printing, sandblasting, stenciling, bulb glazing & hand painting for each specific design detail. The end result is a product that is high quality, superbly original, and handmade. The perfect combination of time-honored, refined techniques of traditional craft decoration with modern industrial processes using the best materials sourced from around the globe.

The search for new harmonies and aesthetic balances.

VRIDA is the answer to those in the search for alternative aesthetic solutions to commercially mass-produced ceramics. The products stand out for their strong originality and represent an interesting study of details and interpretation of contemporary trends.

Retro

Classic Collection
Redefining beauty with a new charm & style.

The RETRO is a collection that takes its inspiration from the '80s, its rebirth through reassessing its stylistic features to create a great combination of graphic signs and textures for contemporary domestic and commercial spaces. The careful combination of "CEMENT"& "TERRAZZO" base tiles with basic designs & colours gives new charm and vitality to the original material.

The RETRO celebrates the ability to harmonise the different materials, colours & textures with an irresistible appeal in any application. Lines, points & geometries create different patterns, with a strong graphic and decorative feeling which can be solely used in singles/patterns to get a more traditional installation.

The rediscovery of the decorated ceramic tiles innovatively, intuitively combines the charm of past years with the modern demands of the most sophisticated architecture.

Rediscovered beauty, enhanced by the passing of time.

CLASSIC

6 Random Patterns
